Policy: Health and Hospitalization Insurance Coverage Requirements for Nursing Students (Undergraduate and Graduate)

Purpose: To ensure nursing students have the potential to financially sustain any health or hospitalization claims that may occur while they are a student in the nursing program.

Policy Statements: All students are required to carry health and hospitalization insurance coverage while enrolled in any of the undergraduate or graduate level nursing programs. Proof of health and hospitalization insurance coverage must be submitted to the student health and immunization repository prior to the start of nursing clinical courses. Students must submit annual updates of health insurance coverage to the repository while enrolled in the nursing program. (See submission table information below) Any changes to a student’s health insurance coverage must be submitted within two weeks of obtaining updated documentation (e.g. insurance card(s)) to the repository.
