

Bradley University
College of Education and Health Science
Department of Nursing

Policy: Skills Lab Bag Contents & Lab Equipment Usage Policy (Undergraduate)

Purpose: To delineate appropriate use of medical equipment for instructional purposes

Policy Statement:

- All lab equipment/supplies and contents of my skills lab bag are for instructional and learning purposes **ONLY**.
- Invasive procedures will **ONLY** be performed on mannequins under direct supervision of Department of Nursing faculty, the skills lab coordinator, or Department of Nursing graduate assistants.
 - Any deviation from this policy could be perceived as practicing Nursing without a license, which carries legal ramifications.
- I agree that I will utilize these supplies as directed by Department of Nursing faculty.
- Deviations from this policy will result in an Honor Code Violation and are subject to appropriate consequences.
- I further understand that the Bradley University Department of Nursing will not be held responsible for any consequences resulting from my decision to deviate from this policy.
- I must bring, and use, my own skills lab bag contents for all scheduled skills lab sessions and all open practice labs. Failure to do so may result in dismissal from scheduled and open lab practice.
- I agree to let the Department of Nursing store items I have purchased for use in future semesters. The Department of Nursing is responsible to provide these items for my use in the appropriate course and at the appropriate discretion of faculty.

Procedure: Students will sign out their skills lab bag each semester and agree to the above statements. The sign-out rosters will be kept on file by the Student Records administrative assistant.
