# WHAT IS OLLI?

We are OLLI. We are your friends and neighbors, and we want to stay vital as we reach and enjoy retirement. One way to do that is to keep learning, so we've joined the Osher Lifelong Learning Institute at Bradley University – OLLI.

OLLI at Bradley has over 1,000 Peoria-area members from age 50 to 98 who come from all backgrounds and educational levels. Together we enjoy the camaraderie of our peers as we participate in a myriad of educational events designed just for us. The relaxed and friendly atmosphere of OLLI only adds to our experiences. It's learning our way!

OLLI offers several programs: Learning Trips, Study Groups, Classes, Lectures, Sunday Cinema, and Special Events. You'll find each of them described in this brochure.

## WE ARE OLLI!

# OSHER LIFELONG LEARNING INSTITUTE AT BRADLEY UNIVERSITY

Not long ago I heard a radio discussion about the brain. The doctor (I don't remember his name) said the neocortex has capacity for 300 million bits of information. Unfortunately, that capacity is reached by about our twentieth birthday. After that, every new piece of information replaces an older bit. So we should try to inject positive new information that hopefully will erase some of the silly or childish stuff we cluttered our brains with over the years.

I tried to think of some of the positive bits of information I gained from OLLI over the past year. Here are a few:

At Sunday Cinema, we saw the amazing documentary *Blindsight* about six blind Tibetan teenagers who attempted to climb one of the highest mountains in the Himalayas. A great story about trust and perseverance! Then OLLI member Barb Gurtler told us how she had climbed that same mountain. Also, twice she has tried to climb Mount Everest but was turned back by stormy weather ... but she has climbed the highest mountain on all other continents!

On an OLLI trip to St. Louis, I had the good fortune to sit at dinner with Bob and Sally Walker. That very day they were celebrating their 13th wedding anniversary. They had met at OLLI back when it was called ILR. She was a widow, he a widower. They connected, and I had the opportunity to share their anniversary.

During October Classes, I heard the interfaith dialog with a rabbi, an imam, and a Christian minister. Wow! If the world could only hear and act on the wisdom expressed! And Garry Moore supplied us with local African-American history that had my brain buzzing.

At a Study Group on Russian short stories, Judi Gentry learned to talk freely about Akaki Akakiyevich but stumbled over the name of Sigismund Krzhizhanovsky. Janet Roth brought red caviar sandwiches for everyone when she led a discussion of the short story, *Red Caviar Sandwiches*, by Asar Eppel. Bettye Thompson talked about riding in an elevator with Aleksandr Solzhenitsyn in London. What a wonderful group of people we are!

Then at one of our OLLI Lectures, popular OLLI instructor Randy Saxon told a packed Marty Theater about the end of the world. He gave us enough information to erase a whole bunch of childish stuff. We learned about everything from the Mayan calendar to Dead Sea scrolls. Happily, the world did not end on December 21.

Yes, I've accumulated a super bunch of information bits at OLLI the past year, and I hope you have too. And I hope you have had as much fun doing it as I have had. Maybe all of us now have more positive ideas in our 300 million-capacity neocortex. As you'll see in this brochure for spring, you'll need to make room in that neocortex for much more new info. See you in class!

## **GIVE to OLLI**

At the fall kickoff luncheon, Past President Carolyn Shepherd announced the OLLI Challenge, a fundraising initiative to support OLLI's future. Carolyn explained to the audience that The Bernard Osher Foundation has asked all of the 117 OLLIs in the nation to demonstrate financial sustainability, including support from members. This support will also assist our OLLI as we seek a second \$1 million endowment. Each of you should have received a brochure in the mail with more information. Your tax deductible donation will help us reach our \$50,000 goal and secure OLLI's future.

For more information, contact Janet Lange, Executive Director of Continuing Education at (309) 677-3900.

## LEARNING TRIPS

What could be better than a travel adventure that takes you off-the-beaten-path and behind-the-scenes? Better still – how much more fun would it be if someone else made all the arrangements for you?

Now you have a sense of what it's like to join an OLLI Learning Trip. We like to travel, but our purpose is to investigate and explore our destinations. So you can expect that a local expert will be on the trip, or at the site, who can explain the significance of what we see and do. On the road, we have fun too whether it's a scenic pull-off, snack stop, or movie on the bus. Our goal is to provide a door-to-door experience in travel learning.

Participation in Learning Trips is worry-free. All travel arrangements are made by staff in Continuing Education, parking is reserved during the trips, and most fees are included. To make your trip even more enjoyable, please note:

- All Learning Trip times in this brochure are approximate and subject to change. Please refer to your confirmation handout (mailed upon registration) for specific departure, tour, and arrival times.
  - Many of our Learning Trips require walking and standing in various terrains and environments. To ensure your safety and to respect our hosts' regulations, everyone is required to wear closed-toed shoes on our trips.
  - Each Learning Trip, Lecture, and Special Event includes an activity level symbol. Before you register, make sure the activity level matches your abilities. This will ensure an enjoyable trip for you and those who travel with you.
- (1) Enter/exit vehicle with minimal assistance, climb some stairs, stand for up to an hour, and walk a few blocks indoors or out.
  - (2) Level 1, plus: climb some flights of stairs and walk on uneven surfaces.
  - (3) Levels 1 & 2, plus: healthy, mobile, and able to participate in 3-5 hours of daily physical activity.
  - (4) Levels 1 - 3, plus: able to participate in 6 hours of daily moderate activity.

Today the company is owned by the Hanley family and is proud to be the oldest continuously operating steel fabricator in America and the oldest manufacturing business in Peoria. During our visit, the fifth president of the company, Margaret A. Hanley, will help us learn more about the company's long history of strong employee relationships that have helped withstand economic downturns. We will also have an opportunity to see the fabrication process and learn what the future holds for this small family owned company.

Once again, OLLI has teamed with the Opera Illinois League to plan an amazing day of opera in Downtown Chicago. *La Boheme*, an opera in four acts composed by Giacomo Puccini, will transport you to the Latin Quarter of Paris, where young artists struggle to make ends meet in icy cold garrets. You'll cheer when the fragile seamstress Mimì (to be portrayed by superstar Anna Netrebko in her Lyric debut) and her ardent poet Rodolfo find true bliss in each other's arms. And you'll cry (spoiler!) when tragedy strikes, and he loses her in the end. Stan Ransom, frequent OLLI instructor, will accompany the group to enrich our understanding of the opera's subtleties. After the matinee performance, we'll enjoy dinner in downtown Chicago.

\$189 – includes tickets to performance (main floor, last half of theatre), presentation, boxed lunch, dinner, gratuities, snacks, and charter coach transportation

***Alarm Will Sound* at Sheldon Hall, St. Louis (1)****Wednesday, March 20, APPROX. 2:30 p.m. – 12:30 a.m.**

### *The Book of Mormon* in Chicago (1)

Nine 2011 Tony Awards® say it's the Best Musical of the Year. *Vogue* says, "It's the best musical of the last 25 years." And *The New York Times* says, "It's the best musical of this century." OLLI has secured amazing seats and an insider's insight for an evening performance of *The Book of Mormon* at the Bank of America Theatre in downtown Chicago. Jim Ludwig, Professor Emeritus of Theatre Arts at Bradley, will accompany our group and discuss the coming-of-age tale of an enthusiastic young Mormon missionary, whose fervent prayer to be sent to Orlando, his favorite city on earth, is answered with an assignment in war-torn Uganda and a partnership with the most inept and annoying Mormon sidekick in religious history. Upon our arrival in Chicago, we will enjoy a relaxing group dinner before the 7:30 p.m. performance. We have requested (but are not guaranteed) a post-performance talkback with the cast. PLEASE BE ADVISED THAT THIS MUSICAL CONTAINS EXPLICIT CONTENT AND GRAPHIC LANGUAGE. \$259 – includes orchestra seats (rows S thru U), dinner, gratuities, snacks, bottled water, and charter coach transportation

### Historic Bishop Hill (2)

Friday, April 19, APPROX. 9:00 a.m. – 4:00 p.m.

In 1846, a group of Swedish immigrants left their native land under the guidance of their charismatic spiritual leader, Erik Jansson. These Janssonists built a successful communal society in Bishop Hill, Illinois, based on economic and religious principles, and it flourished for

nearly 15 years. Today, Bishop Hill is a quiet country village (and National Historic Site) about an hour from Peoria where the charm and character of the original colony have survived the test of time. Join us as we get a glimpse of the history of this once-bustling 19th century settlement with private tours of the Colony Church, Hotel, and Barn, plus the Krans Museum, Bjorkland Hotel, and Vasa National Archives. We'll take a break around noon with lunch at P.J. Next, we'll step back in time and dine in the elegance of Victorian era Dubuque on an historic sites tour and progressive dinner. At the three stops, we'll learn about the architecture, families, and events that made 19th century Dubuque such a unique treasure. As an added bonus, period-themed entertainment will provide an additional element of historical fun to our afternoon dinner stops. \$119 – includes admission fees, historic site tour, progressive dinner, gratuities, snacks, bottled water, and charter coach transportation

**Moderator: Bill Hall, Professor Emeritus, Political Science, Bradley University**

"What do we do now?" Director Michael Ritchie and executive producer/star Robert Redford satirically explore the machinations and manipulations of media-age political campaigns in this cynical political drama. Rumpled left-wing California lawyer Bill McKay (Redford), the son of a former governor (Melvyn Douglas), is enlisted by campaign maestro Marvin Lucas (Peter Boyle) to challenge Republican incumbent Crocker Jarmon (Don Porter) for his Senate seat. ### *Paper Clips*

April 28, 2013

**Moderator: Evelyn Vogel, Volunteer for the Peoria Holocaust Memorial Project, Jewish Federation of Peoria**  
This modestly produced documentary packs an emotional wallop unlike practically any other in recent memory. It takes place in the rural, blue-collar Tennessee community of Whitwell, where a middle-school class embarks upon a simple but ambitious project: In an attempt to gauge the magnitude of World War II's Holocaust, students begin collecting paper clips, each of which represents a human life lost in the Nazis' systematic slaughter of Jews. They are to amass 6 million paper clips, imagining each tiny piece of metal to be a human being. (from [topdocumentaryfilms.com](http://topdocumentaryfilms.com))

## STUDY GROUPS

Maybe you want to drill down or dig into a subject of special interest to you. That's the focus of OLLI Study Groups where we investigate a topic in depth. These discussion-based groups often include the opportunity for us to make presentations, lead a discussion, or do some reading or work outside the class. In this arrangement, each of us is both a learner and a teacher.

While Bradley University is often our base of operation, we also have several community partners who are opening their doors to OLLI Study Groups. Lutheran Hillside Village, Methodist North, Peoria NEXT Innovation Center, Peoria Public Library, Proctor Endowment Home, Riverview Retirement Community, and United Presbyterian Church are great venues for this friendly give-and-take OLLI program.

### Epigenetics and the Dynamics of Aging

Mondays, January 28 – February 25

4:30 – 7:30 p.m.

Bradley University, Westlake Hall

In this five-week course, shared with graduate counseling students in EHC 633, we will explore and research epigenetics, the environmental factors that can influence and even alter the way our genes are expressed. In essence, we will seek to better understand the dynamics that impact the way we grow older. Each OLLI participant will be in a working group with two or more graduate counseling students, their "community of the moment." During the last two sessions, this group will do a presentation that is vital to the dynamics of healthy aging. We will use two books: *Changing Aging*, *Changing Family Therapy* by P. Peluso and *Water for Elephants* by S. Gruen (available at the Bradley Bookstore and area booksellers). Participants will be required to read and discuss weekly reading assignments from these books. Additionally, participants will be asked to fill out a pre-course and post-course survey to assess any changes in perception. A final test will also be taken in the working group. Join us for this innovative Study Group, share your experiences with graduate students, and enjoy this opportunity to engage in reciprocal learning where we each learn from the other!

Join Jon C. Neidy, Associate Director of Continuing Education, in this novel and engaging Study Group in which we participate in the National Geographic Genographic Project to explore our Deep Ancestry. "The Genographic Project uses sophisticated computer analysis of DNA voluntarily contributed by hundreds of thousands of people – including indigenous and traditional populations and the general public – to reveal man's migratory history and to better understand the connections and differences that make up humankind." Participation in this Study Group requires the members to purchase a participation kit for \$200 from the National Geographic Genographic Project. Participants should also plan to purchase or check out from the library, *Deep Ancestry: Inside the Genographic Project* by Spencer Wells. ### Daoist Texts: *Daode Jing* and *Zhuangzi*

Tuesdays, March 5 – April 23

9:00 – 11:00 a.m.

#### Bradley University, Cullom-Davis Library

As one of the three great philosophical/religious traditions of China, Daoism traces its roots back to seminal texts produced in the fourth and third centuries before the Common Era. Foremost among these early texts are the *Daode Jing* and the *Zhuangzi*, which in later Chinese civilization served as a wellspring for metaphysical speculation and a foundation for aesthetic expression and judgment. These books also provided the conceptual lens through which Buddhism became comprehensible to the Chinese gentry class. This Study Group will first examine the historical and philosophical context that produced these works. The group will then proceed through a careful reading and discussion of the entire *Daode Jing*, followed by an examination of two or three chapters from the *Zhuangzi*. Participants will have reading assignments weekly, will write journal reflections each week, and will conclude with a short final summary paper that will be shared at the last meeting with other participants in the group.

\$44 – facilitated by Daniel Getz, an Associate Professor in the Department of Philosophy and Religious Studies at Bradley University. Dr. Getz is a frequent OLLI instructor who has a master's degree in Chinese philosophy from National Taiwan University.

Participants should be prepared to

discuss their concerns regarding financial preparedness for retirement or unexpected widowhood. Reading assignments will be assigned in advance of the first meeting. \$44 – facilitated by Carol Hultgren, Financial Advisor with S-C Advisory Group.

Participants will work in groups to investigate energy resources such as wind, water, geothermal, nuclear, and others. Reading assignments will be required. Some time to meet with your individual group outside the Study Group may be necessary. This Study Group will operate under the assumption that global warming exists. This is not a venue for debate on the existence or nonexistence of global warming. Participants will be expected to research and present as part of their group project.

As news consumers, we’re experiencing unprecedented change in our daily news diets. Seemingly by every measure – from our news delivery technologies to our own tastes – our news consumption regimens are transforming. Nonetheless, regardless of our demographics or psychographics, we still are “filling” our diets with more than an hour a day of news consumption (rivaling the time we spend eating). We will explore the way we are consuming our news and what it means (e.g., “Do I have a news nutritional deficiency if I’m not on Twitter or Facebook?”). Participants are required to purchase and read *Free for All: The Internet's Transformation of Journalism* by Elliot King. Other short articles may be assigned by the facilitator.

### **America's Great Migration**

**Saturdays, April 13 – May 11**

**10:00 a.m. – 12:30 p.m.**

#### **Bradley University, Westlake Hall**

From World War I to the 1970s, some six million black Americans left the American South and moved to the urban Northeast, Midwest, and West. They left all they knew and took a leap of faith that they might find a better way of life. This movement became known as the Great Migration. Join members of a local book club of African-American professionals in a discussion of what happened to those who made the journey. We will focus on Isabel Wilkerson’s book *The Warmth of Other Suns: The Epic Story of America's Great Migration*. This book was a National Book Critics Award winner and a *New York Times* Top 10 best Book of the Year in 2011. Participants will read *The Warmth of Other Suns* as the basis for the group’s discussion. The book can be purchased in paperback or e-book formats.

\$44 - facilitated by Barbara Penelton, Mary McDade, Kathryn Timmes, Eleanor Cowling, Gloria Campbell, Ernestine Jackson, and Jean St. Julian, who are all well-known leaders in Peoria’s black community and members of a book group that has met for many years.

**Journey into the Quantum World**

Tuesdays, April 30 – June 4

9:30 – 11:30 a.m.

Peoria Public Library – Main Branch

In this Study Group we will investigate the quantum world where the seemingly impossible happens every day. Can events happening today impact events that happened yesterday? Can something exist at two different places at the same time? Is free will an illusion? Why are super colliders needed by anyone? Why is the study of entanglement worthy of a Nobel Prize? Is it possible to build and use a quantum computer? What is the big deal with the Higgs boson? In this Study Group we will attempt to answer these questions along with other questions we raise as we journey into, and hopefully out of, the quantum world together. By the end of these six sessions we will all better appreciate why even Einstein described the quantum world as spooky. Email access is required. Participants will be emailed a syllabus and reference material to seed each week's topic discussion. Everyone will be encouraged to participate in the exchange of ideas during the topic discussion.

\$44 - facilitated by Greg Peine, OLLI member and popular Study Group facilitator.

**Matisse and Picasso: A Friendship in Art**

Wednesdays, May 8 – June 5

9:30 – 11:30 a.m.

Methodist North on Allen Road

Most of us are familiar with the paintings of Matisse and Picasso, but what do you know about them on a more personal level? In this Study Group we will find out more about each artist. The discussions will be based on the book *Matisse and Picasso: A Friendship in Art* by Francoise Gilot, Picasso's companion from 1946 to 1954. We will explore the artistic and personal friendship between Matisse and Picasso as well as the tendency to become artistic rivals. The facilitator will display several paintings of each artist followed by a description of each and the mood and purpose of the artists when they painted each piece. Included in the discussion will be the contrasts between the commonality and differences in the painting styles of Matisse as a Fauvist and Picasso as a Cubist. Participants are required to purchase and read *Matisse and Picasso: A Friendship in Art* by Francoise Gilot. Participants will be expected to read three chapters each week and take an active role in the discussion. To aid in the discussion process, questions will be sent by email each week relating to the assigned reading.

\$44 - facilitated by Jean Gronewold, frequent OLLI instructor and facilitator who has taught in the public schools for 17 years and full-time at Eureka College for 7 years.

**Famous Trials IV**

Thursdays, May 16 – June 6 (will skip May 30)

1:30 – 3:30 p.m.

Peoria NEXT Innovations Center

Once again, in Famous Trials IV, OLLI offers the opportunity for participants to discuss high profile battles in legal history. In our first session, we will briefly review basic trial procedure and three important issues in trials – bench versus jury trials, the requirement for unanimity in criminal trials, and the plea bargaining process. During Sessions 2 and 3 we will consider the Jeffrey McDonald Trial (1979) in which a U.S. Army doctor in the Green Berets was found guilty of murdering his wife and two children. In September of 2012 McDonald asked a North Carolina Court to overturn that conviction based on new evidence. In Sessions 4 and 5 we'll take a look at *Falwell v. Flynt* (1984) and *Hustler v. Falwell* (1988), cases which dealt with *Hustler Magazine's* publication of a parody interview with Reverend Jerry Falwell, the leader of the Moral Majority. Participants will be expected to read assigned material provided by the facilitators on both trials, discuss the background of each case, consider the plaintiff and defendant arguments to the court in small group discussion, and then consider the ruling of the court.

\$44 - facilitated by Nicole Meyer, Director of Bradley's Pre-Law Center and Carol May, OLLI Study Group Facilitator and Retired ICC Administrator.

Peoria NEXT Innovations Center

This Study Group will focus on American popular culture's interpretations and anxieties regarding sexuality and "sexual deviance" during the 1800s. \$44 - facilitated by Victoria Rians. She holds a master's degree in history and has taught at Illinois Central College for 7 years.

**CLASSES**

If you were to design the perfect class, it would probably look like this.

- You would study only the things that interest you.
- Your teacher would be knowledgeable, engaging, and down-to-earth.
- The class would have no grades or tests.
- And your classmates would mirror your age and interests.

If you could also meet on a college campus, have a guaranteed parking spot, and enjoy some free time together, you would be in an OLLI Class.

We come to Bradley University three times a year to attend classes on every imaginable topic. Each class is about an hour long, and between classes we take time for conversation, camaraderie - and snacks! In OLLI Classes, learning is fun and good for you!

Insights into the theory and findings of behavioral finance will help you answer this question. The class instructors are Bill Kwon and Jeremy Kellem of Morgan Stanley Smith Barney. (RI/NC)

### 52. Understanding the Music of Bach

The music of Johann Sebastian Bach was transformational to the history of music, is timeless in its nature, and is still loved and studied by many. Martin Dicke, Director of Music at Trinity Lutheran Church, will lead you to a deeper understanding and appreciation of Bach's music by examining some of the key cultural, musical, and religious elements. Topics will include discussions of Bach's formative years, the importance and influence of Baroque dance, recent Bach research, and the story of the Bach Bible which somehow made its way from Germany to Frankenmuth, Michigan, and now resides in a library in St. Louis. (NI/NC)53.

### 53. Where Have All the Ethical Leaders Gone?

Join Brad McMillan, Executive Director of Bradley's Institute for Principled Leadership in Public Service, as he explores ethical strategies and standards, ethical decision making and behavior, and the importance of a leader's character. *This class will be held in the newly renovated Westlake Hall.* (RI/NC)

## 2:00-3:30

### 54. Calligraphy

secrets using short demonstrations. Participants will learn how to draw various subjects using the principles taught by the instructor. The supply list will be minimal and easy on the budget! (RI/NC)

### 56. Interfaith Dialogue

Back by popular demand, we will hear different faith perspectives on these important topics: suffering, forgiveness, life after death, and core moral values. He will discuss the early history of the European settlement of the Lake Pimiteoui region from 1673 (visit by Father Marquette and Jolliet) through 1835 (when Peoria was incorporated as a village). He will focus on a total of twenty events over that 162 year period which shaped the future development of the city of Peoria. (NI/NC)
