WHAT IS OLLI ONLINE?

OLLI is an acronym for The Osher Lifelong Learning Institute at Bradley University, an organization of more than 1,200 members who are at least 50 years old and who want to stay vital and active as they reach and enjoy retirement. One of the best ways to do that is to keep learning, and OLLI offers many options to do so.

OLLI Online provides many virtual learning experiences delivered via Zoom, a free and easy to use video conferencing software. Meeting “live” via Zoom allows learning to continue from the comfort and safety of our own homes until we can meet in person again. Please review our current program options so you can pick what best fits your learning preferences and interests:

- **Introduction to Zoom** sessions help our members learn how to use the software on their computers, tablets, or smart phones. Led by a volunteer OLLI instructor and offered free of charge to all, our goal is to help you feel comfortable with the technology so you’ll enjoy your experience with OLLI Online.
- **OLLI Online Classes** are lecture-based courses during which the instructor delivers the learning material with the opportunity for participants to ask questions either during or after the presentation. OLLI Online classes are offered monthly on Wednesdays; they meet for approximately one hour each at 9:00 a.m., 11:00 a.m., 1:00 p.m., and 3:00 p.m.
- **OLLI Online Study Groups** are participation-based; the facilitator delivers core learning material, but all participants learn by sharing. OLLI Online Study Groups usually have an expectation of reading, watching a video, or other independent study outside of each session. Each group starts at various times throughout each month, and usually meet for 1.5 hours to 2 hours for four to six weeks. Seats are usually limited to 15 to 25 participants so that everyone has an opportunity to actively participate.

- **OLLI Online Learning Trips** includes “Travel” Beyond Peoria which is an opportunity to travel virtually via Zoom to visit museums, attractions and speakers around the world. Support Local is our program with area restaurants and businesses which include a curbside pick-up, followed by a conversation or chance to go behind-the-scenes with the owner/chef the next day.
- **OLLI Online Originals** are exclusive talks with local leaders and businesses from the community and beyond. These one-hour sessions are a great way to keep informed about specific topics, governmental updates, or business organizations.
- **OLLI Online Free and Social Events** are free social events hosted by an OLLI volunteer several times a month. Each happy hour or book chat has a theme, but it’s not necessary to share – just pop in and enjoy!

A LETTER FROM OLLI PAST PRESIDENT

Dear OLLI Members,

Happy well-deserved Spring, Fellow OLLI members, and isn't that view just poking over the horizon a beauty? It has such a great name too: "Normal Life"! What's that you say? "We're not there yet"? True, true, but we see it coming. We just had a year-long hiatus and soon we'll be shaking hands and hugging our greetings.

Meanwhile, raise your hands if you say often and without hesitation, "OLLI sweetened my days and gave me the resolve to soldier on through these past months of isolation and terrible news."

Thank heavens for your beautiful OLLI faces on zooms and the ever-patient and supportive staff members who have enabled our virtual communities. Let's don't talk here about the too-many loaves of bread (and cakes and cookies) we've baked or the threat all that COVID-cooking now poses to our wardrobes, but that might have helped too.

And don't worry, OLLI members from far away. It's been a joy to see you online, and we're looking at ways to keep you close as we head toward in-person OLLI.

Right now, if the mood suits you, grab your jackets and head outside to see the trees budding and the green of your garden poking up before settling down for your day's OLLI offering. Hello Sun coming through my window! Hello Traveling Birds stopping for a bite to eat! Greetings Neighbors and Friends -still 6 feet apart, but a bit less leery of coming together.

As we head out, let's offer one more giant thank you to the leaders of study groups, classes, trips, coffees and cocktail hours that kept us going this past year, as well as the local restaurants that dished up delicious dinners and hors d'oeuvres for our repasts. Looks like we made it. (Oh no. Am I channeling Barry Manilow?)

Yours,

Jane Hense

Our OLLI Executive Committee are true team players, as they have Zoomed into action over the past year, assisting staff with the pivot to OLLI Online.

Bill and Judy Johnson enjoy a tour of the Peoria Courthouse monuments.

As spring approaches you might want to add a few plants to design or maybe you want to completely renovate your landscape. This class will review some of the principles and tricks of home landscaping, whether you are considering a major revamping or just a little tweak. In addition to planning a design to suit your lifestyle, the class will help with selection of appropriate landscaping materials. Which plants do you choose and where should they go? If you have a bigger project in mind, the instructor will address how to find and work with professionals both for design and installation.

The Paris Peace Conference of 1919 was that meeting. It imposed treaties on the central powers, changed the history of the Middle East, and saw America enter the world stage as a major power. This class will look at the Peace Conference and the role America played.
\$20 – Class instructor is Bernie Drake, local historian, former President of the Peoria Historical Society, and frequent OLLI instructor and facilitator.

OR

4. Elementary Particles (Electrons, Protons, Quarks, Photons) **11:00 a.m.**

Not a physicist, but have an interest in physics? We all remember atoms consist of electrons, protons, and neutrons. This class will discuss the elementary particles of physicists' Standard Model (electrons, quarks, photons, etc.) and their classical and quantum mechanical properties: mass, charge, spin. We'll also learn about the dual slit experiment: a particle interfering with itself, and more about fermions vs. bosons. Join Walter Urbaniak to learn more about this complex subject as he shares his passion for physics.
\$20 – Class instructor is Walter Urbaniak a retired computer networking engineer with an interest in physics and particularly quantum mechanics.

5. Jeremiah: Prophet of the Exile

1:00 p.m.

The Book of Jeremiah chronicles the rise and fall of one of the greatest prophets in Israel. From Jeremiah's call to ministry to his eventual exile into Egypt, the book gives us a glimpse into how this prophet tried to turn the people of Israel back to God to avert certain destruction at the hands of the Babylonians. Each week, we will discuss how the book was written at the time and what it has come to mean today. \$20 – Class instructor is Pastor Bill Dohle, a frequent OLLI instructor; now located in Pueblo, Colorado he serves King of Kings Lutheran Church.

OR

6. Beyond the Color Wheel

1:00 p.m.

Color is much more than the six primary and secondary shades of the simple color wheel--way more than even neon yellow, gold metallic, and iridescent finishes. This class will begin with basic color terminology, providing a foundation for looking at our world in a new light. We

will explore how color interacts with our lives, from our appreciation of nature to its impact on our emotions. We'll also delve into the history of pigments, and learn how color relates to art, science, and marketing trends.

\$20 – Class instructor is Miriam Olson, former editor of Crafts magazine, Board member of the Illinois Art League. and coordinator of the Prairieland Watermedia Society.

7. Ranked Choice Voting and Other Changes to Our Election Systems

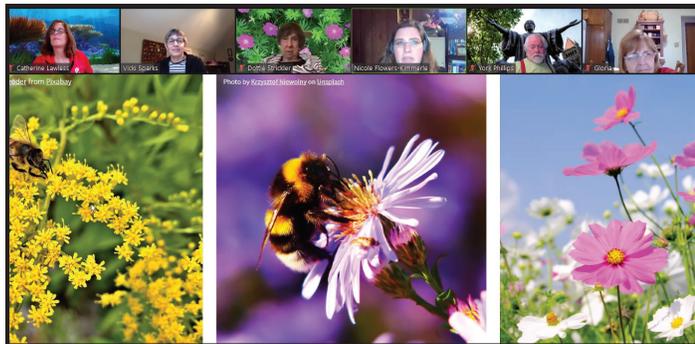

3:00 p.m.

Many feel our election systems of closed primaries and plurality winners are contributing to the current polarization and stalemates in American politics. Join us to learn more about ranked choice voting, an electoral system that allows people to vote for multiple candidates, in order of preference, instead of just choosing who they want to win. We'll also discuss some other changes which are being introduced, including open primaries.

\$20 – Class instructor is Trisha Crowley, President of League of Women Voters of Champaign County, and former Deputy City Attorney for the City of Champaign.

An OLLI class tradition, smiling faces wave to the camera, we miss you all!

Nicole Flowers-Kimmerle give OLLI members tips on preparing their gardens for spring during classes.

1. Near Death Experiences with Bradley Professor Amit Sinha

Monday, April 5, 12:00 p.m.

Millions of people worldwide nearly die or experience clinical death. About 17% of individuals who nearly die, experience a profound spiritual experience while they are clinically dead, and return to tell fascinating stories that, some argue, provide glimpses of the afterlife. These experiences leave the experiencers, and those that study them, permanently changed. In this presentation, Dr. Amit Sinha, a non-experiencer and a Professor of Finance, in Foster College provides an overview about these near death experiences.

Artificial Intelligence (AI) is being introduced to an increasingly large number of domains, often with exciting and impactful results. In this talk, Ola Zytek, a Phd candidate at Massachusetts Institute of Technology (MIT) will discuss this so-called "black-box problem".

Project Implicit is the product of a team of scientists whose research produced new ways of understanding attitudes, stereotypes, and other hidden biases that influence perception, judgment, and action. We will have an exclusive conversation with Executive Director, Amy Jin Johnson, a Peoria native, who will discuss implicit bias and how the fact that people may discriminate unintentionally continues to have implications for understanding disparities in so many aspects of society. \$10 per person

Each OLLI Social Event has a themed discussion, it's a great way to meet and connect with others in a relaxed setting. Even if you prefer not to share on a particular topic, it's a good way to socialize and practice your Zoom skills.
