WHAT IS OLLI?

The Osher Lifelong Learning Institute (OLLI) is an organization at Bradley University whose members, age 50 and older, want to stay active as they reach and enjoy retirement. One way to do that is to keep learning, and OLLI offers them many options.

Participants enjoy a diverse collection of year-round programs including non-credit classes, educational travel, study groups, and cinema events. The only pre-requisite is that you enjoy learning!

OLLI at Bradley has nearly 1,100 Peoria-area members who are enjoying the best of life-after-50 as they participate in educational events designed just for them. The relaxed and friendly atmosphere of OLLI only adds to their experiences. It's learning their way!

OLLI offers several programs during its Spring program: learning trips, cinema, study groups, and classes. You'll find each of them described in this brochure.

WE ARE OLLI!

OLLI volunteers are the heart and soul of our organization. We celebrate our success due to their efforts. Thank you!

A Letter From Your OLLI President

It has been a wonderful experience serving as the president of our OLLI. During this year I have been so impressed by the efforts of the Continuing Education staff; their friendly faces and helpful assistance are the backbone of our program, and they can't be thanked enough. It is also very important to thank Bradley University for its continued support of our program.

We have had a very successful year. Our membership keeps increasing, and the number of volunteers surpasses the expectations of all OLLIs across the nation. Volunteers are the heart of our program! Our volunteers serve on committees, decorate the ballroom for luncheons, direct traffic at our park-and-ride lots, host classes, distribute brochures, assist with various programs, and more. Most of all, they bring their experiences and new ideas to keep OLLI fresh and exciting for all of us.

It has been such a delight to hear how much our members enjoy OLLI and what OLLI means to them. One woman told me, "I would not miss this for the world!" A long-time member says often, "This is the best! Where would I be without OLLI?" Yet another peer told me, "I'll be coming here until I can't come anymore." More than once, I've heard my lifelong learning friends say, "This is the best bargain around," and "I have such a good time when I come to OLLI," and "I have met so many new people coming to classes. It's the best." On and on ... the reviews are positive!

As you know, we have been the recipients of two, \$1 million dollar grants from the Osher Foundation. That money was gifted to Bradley University as an endowment, and OLLI can spend only the interest to fund staff salaries. As a requirement for that second \$1 million gift, The Bernard Osher Foundation required our OLLI to implement a robust fundraising plan in order to promote the program's stability and sustainability. As such, we continue to ask our membership to think of OLLI in their charitable giving. Although we have had huge success in raising money for OLLI, less than one fifth of our membership has been represented in that giving. So, this year, I am asking each of you to donate what you can – for some, \$100 is possible. For others, \$5 is possible. No matter the amount, I encourage you to give to help ensure the ongoing excellence of our program!

Thank you for making my tenure as OLLI President a wonderful time.

Sincerely,

Mary Ellen Krum
OLLI President

We'll learn about the site during a two-hour private hike with David Pittman of the Friends of Rocky Glen, a group dedicated to the site's preservation. David will provide further insight about the land's history and update us on the purchase and how the Friends of Rocky Glen are continuing the hard work to preserve the property, lead hikes, begin restoration work, and spearhead Adopt-a-Highway cleanups along Kickapoo Creek Road. Please note that this trip will require two hours of hiking very steep terrain. Your trip itinerary will include a detailed list of suggested attire for the hike.

1. Morton Arboretum with James Ballowe 1 2 3**Thursday, April 28, 7:00 a.m. – 6:00 p.m.**

The Bradley Alumni Association has invited OLLI members to share a special opportunity with their Chicago Alumni as they join Bradley University's Distinguished Professor of English Emeritus James Ballowe for a visit to the Morton Arboretum in Lisle. We will have a private lunch in the Founder's room at the Arboretum, followed by a short presentation from Professor Ballowe, who is the author of *A Great Outdoor Museum*, a history of the Morton Arboretum, and *A Man of Salt and Trees: The Life of Joy Morton*, a biography of Joy Morton. After lunch, we will board trams to tour the facility, with the rare privilege of having Dr. Ballowe and Craig Johnson, former director of education at the Arboretum, as our guides. We'll learn from the best as they narrate our trip through the Arboretum, an internationally recognized organization dedicated to the planting and conservation of trees. Its 1,700 acres hold more than 222,000 live plants from around the world. This trip will allow us to be inspired by Joy Morton's vision for a “great outdoor museum” of trees, where one can appreciate, learn about, plant, and protect trees. As an added bonus, Bradley alums from the Chicagoland area have been invited to join us at the Arboretum.

Harley Bradley House, designed by Frank Lloyd Wright. This house was one of Wright's first Prairie Style designs done in the 1900s. After lunch, we'll tour two of the area's

historic churches, including St. Paul's Episcopal Church, circa 1900, and the Asbury United Methodist Church, circa 1868. We'll also make a stop at the French Heritage Museum at the Stone Barn, which houses exhibits on the French involvement in the history of the Kankakee River Valley.

\$99 – includes tours, presentations, lunch, gratuities, snacks, and charter coach transportation

3. History, Arts, and Architecture on Chicago's North Shore ①②③

Wednesday, May 25, 6:30 a.m. – 7:00 p.m.

On this trip, we will travel to Lake Bluff to visit Crab Tree Farm, a must-see for anyone interested in history, architecture, or the decorative arts. It was designed by architect Solon Beman as a model dairy farm; the buildings have undergone extensive renovation and now house world-renowned collections of Arts and Crafts furniture and decorative arts. It is also a place where craftsmanship is valued and practiced. While half of the central farm building is used for livestock, the other half is a workshop for woodworkers, ceramics artists, metalworkers, and sculptors who are given short and long-term residencies. After lunch, we will head to the Evanston History Center at National Historic Landmark Dawes House. The Dawes House was built in 1894 and designed in the French chateaux style by architect Henry Edwards-Ficken of New York. While at the house, we will receive a private tour and have the opportunity to visit the current

exhibit *A Crowded Life*, featuring items from Charles Dawes personal collection of memorabilia, photographs, and accomplishments from his work as a Brigadier General in charge of supply in World War I.

ACTIVITY LEVEL ④

4. Apple Canyon Hike with Ed Stermer ①②③④

Thursday, May 12, 7:00 a.m. – 7:30 p.m.

Professor Ed Stermer of Illinois Central College is back by popular demand for another fascinating day of hands-on geology. On this trip, we'll head up to the hilly northwest corner of Illinois to visit Apple River Canyon State Park. We'll hike among limestone bluffs, deep ravines, springs, and streams that characterize this area. Once part of a vast sea bottom that stretched from the Alleghenies to the Rockies, the scenic canyon area was formed by the action of the winding waters of the Apple River. This is a good place to view fossils since the glacial sweep that leveled hills and filled valleys in other parts of the state left this area unscratched.

\$99 – includes guided hike, lunch, gratuities, snacks, and charter coach transportation

SURPRISE!

OLLI'S NEW ONLINE REGISTRATION SYSTEM HAS ARRIVED

OLLI's new online registration system has been anticipated for over a year ... and ... surprise ... it arrived as Bradley University was closing for the holidays! Staff is still learning the finer details of the system, and will soon communicate with you about how best to use it.

For now, we need to stress this very important fact: **if you plan on registering online for this or any upcoming season, you must have your own email account.** If you share an account with a spouse/partner, you'll need to set up a **separate email account** for yourself. The new registration system, once fully implemented, requires our members to have their own unique user names and passwords. Please consider creating your own email account now, so that when the time comes to register online, you will have already completed the most time-consuming step.

Much more information will be provided at OLLI classes during the first week in January, online at Bradley.edu/olli, and in our weekly email newsletter. If you don't receive the newsletter, please email your name and email address to eepterson@bradley at your earliest convenience, and she will make sure you start receiving the OLLI e-newsletter.

OLLI-SPONSORED LECTURES

Starting this spring, OLLI will sponsor lectures, hosted by Bradley University departments, to further strengthen the relationship between OLLI and the University. The lectures will be free, take place on campus, and will not require advanced registration. Our first sponsorship will support the lecture series established by the College of Liberal Arts and Sciences this spring that features expert speakers on a variety of academic topics. Mark your calendar for this first OLLI-sponsored lecture!

Big Data, Geometry, and Algebra: Modeling Complexity in Financial Networks

DINNER AND A MOVIE

Dinner and a Movie allows OLLI members to explore different theatre venues throughout Central Illinois. We'll travel to an area theatre, tour the site, watch a film, and share insights about the movie. It's another great way to learn on-the-go with OLLI while discovering the rich theatre options in our community.

I. Chillicothe Town Theatre: *The Big Sleep* Monday, May 9

1:00 – 6:30 p.m.

Our trip to Chillicothe will begin with a tour of the Chillicothe Town Theatre, owned and operated by the Optimist Club. We will have the opportunity to learn about the operation of the nonprofit theatre, whose proceeds are donated to local youth groups. We will have a chance to purchase snacks from the concession stand before enjoying the classic Bogie and Bacall film, *The Big Sleep*. Based on the 1939 novel by Raymond Chandler, this unusual example of film-noir was added to the U.S. National Film Registry in 1997. Following the film, Randy Wilson and Carol May, OLLI instructors and Cinema Committee members, will moderate a short discussion on the film. To conclude the trip, we will enjoy a delicious Italian dinner at Sazani's. Shuttle transportation will be provided for 28 participants; up to 30 more may register and drive separately. \$55 – includes tour, film screening, presentation, dinner, gratuities, and round-trip shuttle transportation

REMEMBER OLLI IN YOUR GIVING PLAN

Happy New Year! As you may know, The Bernard Osher Foundation requires OLLI to have a robust fundraising plan. Our first three OLLI fundraising efforts were very successful, and we are now in the midst of our fourth annual giving campaign, which runs through the end of May.

Thank you to those who gave to OLLI in the past ... and if you haven't had a chance to do so, there is still time to make a donation to help OLLI reach its goal for 2015-16. Your Executive Committee has set a goal of \$50,000 to help make improvements to the Michel Student Center ballrooms, maintain our two OLLI shuttles, sponsor cinema and lecture programming, and save for future needs.

Help us build a better OLLI for today and tomorrow. OLLI is one of the few charitable organizations in which your donation benefits YOU now and sustains OLLI for future members. Please donate online at bradley.edu/olli/giving, or call (309) 677-3900.

On a trip to U of I, OLLI members toured Memorial Stadium to see the field, locker room, and VIP lounges.

CINEMA CONVERSATIONS

Cinema Conversations takes movie-viewing to another level by offering multiple sessions to really tackle a film and the readings related to it. View the motion picture at Bradley during the first session, and then return in subsequent weeks to talk about the major themes and messages of the movie and readings.

2. *The Interrupters*
Thursdays, May 5, 12, and 19
2:00 – 4:00 p.m.

Class #9
TIE-IN

May 5: film viewing at Bradley University Visitor's Center

May 12 and 19: discussions at Peoria NEXT Innovation Center

During a turbulent and violent period in Chicago, *The Interrupters* follows the moving and surprising stories of three “Violence Interrupters,” who try to protect their neighborhoods from the violence that was a daily part of their lives. The film’s main protagonists are Ameena Matthews, daughter of one of the city’s most notorious gang leaders, Cobe Williams, a good-natured young man moving down the wrong path after his father’s murder, and Eddie Bocanegra, who is haunted by a murder he committed when he was seventeen. The three Chicagoans work for an innovative organization, CeaseFire, which believes that the spread of violence mimics the spread of infectious diseases, and so the treatment should be similar: go after the most infected and stop the infection at its source. Using their street reputations, the “Violence Interrupters” attempt to intervene in conflicts before they explode into violence. Recommended reading material will include online articles related to gang violence in Chicago. Guest speakers will include Judy Huff, former Director of the Human Services Program at Illinois Central College and Facilitator of Poverty Simulation Programs, and a representative from the Peoria Police department’s “Don’t Shoot” Initiative.

\$29 – facilitated by Jennifer Bass, retired teacher, frequent OLLI instructor, and OLLI secretary.

SCRIBE TO SCREEN

Scribe to Screen compares a book with its film counterpart to explore the process in depth. View the film at the Peoria Public Library North Branch during the first session, and then meet the following week to discuss the book and film at length.

3. *Atonement*
Mondays, March 21 and 28
1:30 – 4:00 p.m.

Peoria Public Library North Branch

From the origin of film in the late 19th century, most of its script material has come from books, short stories, plays, and other forms of printed material. In this inaugural session of Scribe to Screen, participants will be engaged in a discussion and comparison of a 2001 novel by Ian McEwan, *Atonement*, and the 2007 film of the same name, starring James McAvoy, Keira Knightley, and Vanessa Redgrave. In 2002, *Atonement* was shortlisted for the Booker Prize for fiction and won the National Book Critics Circle Award for fiction. It has also been cited by *Time* and *Entertainment Weekly* as one of the best novels written since 1945. In 2008, the film won the Golden Globe for Best Drama Film, the BAFTA for Best Film, and seven Academy Award nominations. During the first session, we’ll watch the movie and, at its conclusion, discuss the historic periods in which it occurs, its major plot lines and characters, and participants’ reactions to the film content. During the second session, we’ll delve into a comparison of the novel and its film adaptation, including the similarities and differences between the novel and the film script, how the film director and the screenwriter’s vision may have been similar and different than the author’s, how the novel and movie portrayed the major characters, and, of course, which format was more effective: the book or the movie. The book is available from local or online retailers and libraries. Email access is also recommended to receive information such as summaries, questions, and reviews from the Scribe to Screen moderators.

\$25 – facilitated by Jane Hense, retired English instructor and development director, Notre Dame High School, and OLLI study group committee chair; and Carol May, retired administrator, Illinois Central College, and OLLI cinema committee chair.

OLLI CINEMA SPECIAL PRESENTATION

4. *Last Days in Vietnam*
Friday, April 29, 2:00 – 4:00 p.m.
**Peoria Riverfront Museum Giant
 Screen Theatre**

**Study
 Group #1
 TIE-IN**

In collaboration with the Peoria Public Library and the Peoria Reads Program, OLLI presents a special cinema event at the Peoria Riverfront Museum featuring *Last Days in Vietnam*. The documentary depicts the struggle of the small crew of U.S. diplomats and military operatives left in Saigon near the end of the Vietnam War. As the North Vietnamese Army closed in and the Communist victory appeared inevitable, the U.S. prepared to withdraw. When the anticipated evacuation of the South Vietnamese became terminally delayed by Congressional gridlock and the inexplicable optimism of the U.S. Ambassador, however, the Americans grew concerned about the certain imprisonment and possible death of their South Vietnamese allies, co-workers, and friends. With time running out, several Americans took matters into their own hands, engaging in unsanctioned and often makeshift operations, in a desperate attempt to save as many South Vietnamese lives as possible. The filmmaker of this documentary was Rory Kennedy, the youngest child of Robert and Ethel Kennedy, who was not yet born at the time of her father's assassination in 1968. Following the film, Dr. David Thompson, Professor of History at Illinois Central College and OLLI class instructor, will lead a discussion about the events that took place in those final days of the war. \$5 – includes admission and presentation. Transportation not provided – meet us at the Peoria Riverfront Museum! Free parking is available in the deck accessible from Water Street.

STUDY GROUPS

If you're like many OLLI members, you want to learn more about the things that interest you. That's what study groups offer - the opportunity to investigate a topic in depth with like-minded peers. You may work independently outside the group; you may lead the group; or anything in between. Study groups are your connection to studying what you most enjoy with people who share your enthusiasm.

Study groups meet at Bradley University as well as several satellite locations throughout the community including Bickford of Peoria Senior Living, Hindu Temple of Central Illinois, Hult Center for Healthy Living, Humana Guidance Center, Lakeview Library, Lutheran Hillside Village, the Peoria NEXT Innovation Center, Peoria Public Library, Trinity Lutheran Church, United Presbyterian Church, UnityPoint Health Methodist North, Universalist Unitarian Church, and Washington Public Library.

Please note: Study groups are now grouped based upon the anticipated level of member participation as described below. These groupings are general guidelines, however, and could change depending upon facilitator needs.

- **Discussion-based:** participants may be asked to read material and participate in whole group discussions
- **Participation-based:** participants may be asked to read material, participate in small group breakouts/discussions, do research and/or make brief oral reports
- **Practice-based:** participants may be asked to learn a skill set and engage in practice between sessions

Mondays, March 7 – April 11

10:00 a.m. – 12:15 p.m.

Peoria NEXT Innovation Center

This study group will look at ways the animators' strike in 1941 changed pioneering cartoonist Walt Disney's personal and professional perspectives. From *Steamboat Willie* and *Snow White* to *Song of the South* and *The Jungle Book*, we'll examine Disney's life and the forces that drove him to near-genius. Participants are expected to read *Walt Disney: An American Original* by Bob Thomas, available from local or online retailers and libraries. \$45 – facilitated by Terry Meismer, OLLI study group coordinator, and cinema committee member.

3. Pope Francis and the Challenges of the 21st Century

Tuesdays, March 8 – March 29

10:15 a.m. – 12:30 p.m.

Humana Guidance Center

"Who am I to judge?" This question from a pope of the Catholic Church has delighted and horrified people – depending upon where they stand theologically. For progressives, these words signal hope for radical change in the Church's attitude and teaching; for traditionalists, they elicit a deep fear of an internal revolt. This study group will involve an in-depth review of what the true mission of this pope is and how he attempts to achieve it. Does he intend to be a change agent? A historic reformer? Or does he intend instead to simply inspire people to take a fresh look at a very ancient religion and renew their own personal commitment? Does he want to rewrite the Catechism, change doctrine, or help people see that, in the words of one scholar, "the official teaching is often less important than how it's applied in real-world circumstances?" Participants are asked to read the book, *The Francis Miracle: Inside the Transformation of the Pope and the Church* by John L. Allen Jr., available from local or online retailers and libraries. \$45 – facilitated by Ted Wolgamot, retired psychologist, writer, and blogger.

4. Facilitator Training**Friday, March 11****9:00 a.m. – 3:00 p.m.****Peoria NEXT Innovation Center**

Are you thinking about leading a study group for your fellow OLLI members? Then this one-day training session is for you! We will introduce and reinforce the skills you need to successfully facilitate a group of eager older learners, focusing on group dynamics and artful questioning. In addition, we'll provide step by-step instruction on the tasks needed to complete the planning for your group and the description for the brochure. New this session is the completely updated "Toolkit," an invaluable handbook of "how to" advice for practiced leaders who wish to refresh their skills and new leaders who have decided to share their passion for a subject with the rest of us. This group meets FOR ONE DAY ONLY and is FREE. Our day is short and the information important, so we ask that participants bring their own brown bag lunch for a short noontime roundtable discussion. Morning snacks and beverages will be provided by the facilitators.

FREE – facilitated by Jane Hense, OLLI study group chair, and Carol May, retired ICC Social Sciences Department Chair and OLLI cinema committee chair.

5. Coffee & You**Mondays, March 21 – April 25****9:00 – 11:15 a.m.****Peoria NEXT Innovation Center**

In this study group, we will explore everything coffee: its history, farming, practices, roasting, brewing, business, and even its medical attributes. Participants will be asked to share their opinions about such things as single origins versus blends, coffee recipes, coffee makers, and more. Participants will need Internet access to perform some research, take quizzes, find coffee trivia, and read the book *Uncommon Grounds* by Mark Pendergrast, available from local or online retailers and libraries. There may also be a coffee store visit with a tasting.

\$45 – facilitated by Bob Yonker, OLLI study group committee member, and parking captain.

6. Thank you, Harper Lee: A Study of *To Kill a Mockingbird* and *Go Set a Watchman***Tuesdays, March 22 – April 12****9:30 – 11:45 a.m.****Peoria NEXT Innovation Center**

Come explore the life of author Nelle Harper Lee and the authentic people behind the characters in her 1961 Pulitzer Prize winning novel, *To Kill a Mockingbird*. We'll look at the publication history of *Mockingbird*, its effect on the Civil Rights movement of the 1960s, and why it continues to sell more than a million copies each year. We also will examine the development and filming of the Academy Award-winning movie starring Gregory Peck, as well as Harper Lee's often over-looked contribution to Truman Capote's *In Cold Blood*. During the final two weeks, we will study Lee's recently published *Go Set a Watchman*. This controversial book has left many questions

among readers who held in high regard the characters and story of *Mockingbird*. Information also will be shared regarding Harper Lee's later life in Alabama and New York. Participants are encouraged to have read at least one of the novels and to be prepared for group discussion. Both books are available from local or online retailers and libraries. \$45 - facilitated by Jennifer Bass, OLLI secretary, and Vick Steward, OLLI study group facilitator and member of the OLLI study group committee.

7. Gita Way of Living**Thursdays, April 7 – May 12****9:30 – 11:30 a.m.****Hindu Temple of Central Illinois**

Our beliefs determine our thoughts and attitudes about life, which, in turn, direct our actions. By our actions, we create our destiny. Beliefs about sacred matters – God, soul, and to one's cosmos – are essential approaches to life. *Bhagavad Gita* (Divine Song) is the synthesis of Hindu Vedic learning dating back thousands of years, but relevant today as ever. It teaches Dharmic approach to Karma for harmonious living within the realm of our nature and the nature that surrounds us. It teaches the art of living as our soul journeys toward emancipation. This study group will delve deeper and gain a more fulfilling understanding of that way of living. Participants are encouraged to read *The Bhagavad Gita* by Jack Hawley, available from local or online retailers and libraries.

\$45 – facilitated by Prakash Babu, founder chairman, Hindu Temple of Central Illinois.

8. Women Artists in the River City**Thursdays, April 28 – June 2****10:00 a.m. – 12:15 p.m.****United Presbyterian Church**

One reason for the increasing popularity of our local arts community is the significant contribution made from woman artists. In this study group, we'll explore how and why art is thriving in our town and the role of women in that growth. Our discussion leaders will be Channy Lyons, Director of the Illinois Women's Artists Project in 2015 and the Curator of *Making Their Marks: Illinois Women Artists 1940-1960*, a current exhibition at the Peoria Riverfront Museum. She will be joined by Sharon Amdall, OLLI Executive Board Member and benefactor of the Peoria Riverfront Museum and the Sculpture Walk. We'll then discuss how women are managing to balance their pursuit of art with family life by viewing clips from the documentary film *Who Does She Think Is?* featuring the stories of five women artists. Four Peoria women artists will join our discussion for the remaining four weeks of the group: Dana Baldwin (fiber artist), Jaci Willis (sculptor), Cathie Crawford (printmaker), and Barb Hoffman (photographer). Participants will need email to access a number of online reading materials related to the topic of women in art.

\$45 – coordinated by Pat Meismer, OLLI study group committee member, and Carol May, retired ICC Social Sciences Department Chair and OLLI cinema committee chair.

In 1909, 480 men and boys descended into an underground coal mine located in Cherry, a village 60 miles northeast of Peoria in Bureau County. 17. Exploring the Mystery of Time**Tuesdays, April 5 – May 3****1:30 – 3:30 p.m.****Peoria NEXT Innovation Center**

In the brief time that has passed since you started reading this, the messiness of the universe has increased. The future of a few moments ago is now the present. You are at a different point in space-time, even if you haven't moved from your chair. In this study group, we will join forces with Professor Sean Carroll, noted author and Senior Research Associate in Physics at the California Institute of Technology. In each of our five sessions we will explore different aspects of time by watching parts of Professor Carroll's lecture series and discussing the questions provided in an accompanying Great Courses study guide. Some of the topics covered will include ways of keeping time, time's arrow, time and messiness (entropy), time reversal, time travel, and memory and consciousness. At the end of our sessions, participants will have a better understanding of this feature of the world that we all experience. Each week before we meet, participants are expected to review the assigned material. That material, provided by the facilitator, will include some video links and study guide material. Please reserve 60 minutes each week for that review. During our meetings we will view additional video snippets and engage in a facilitated discussion focused on “timely” questions from the study guide.

Darlene was determined to ride that wave of change. For nine summers, she led a group of single girls, mostly from Bradford, on adventurous summer vacations in her "T," named Silver Streak, crisscrossing the continent in search of adventure, meeting the rich and famous, camping, and even sleeping in jails. The class instructor, John Butte, researched the story extensively and will provide an in depth view into the trips, the girls, and that old Model T. (NI/NC)

Topics will include risk management, security, passwords, WiFi, ethernet, hardware, software, printers, storage, and backups. We will also discuss social media, popular software, what to do and what not to do for a stable and secure home computer network. 51. Look What I Did

April 6 – Pulling Back the Curtain on Talk Radio!

**Trivia
TIE-IN**

Join Greg Batton and Dan Diorio from WMBD Radio for a fast, friendly, and real look at talk radio. Greg and Dan will share the stories that make up their 10-year radio partnership – the funny, the tragic, and everything in between. WMBD is Peoria’s oldest radio station; many think they know what the call letters stand for but, as Greg and Dan will explain, most are wrong! Hear Greg and Dan explain how stories are picked, guests are booked, and how they prepare for their daily show. And they will do it with no commercial breaks! (NI/RC)

April 13 – From Idea To Impact: Creating and Growing a Non-profit to Make A Difference

Brandi Arnold and Michelle Yuen created the non-profit Paws Giving Independence in 2008 while they were still students at Bradley, and they have continued to grow it in the years since. The concept is described by their non-profit’s motto: saving a life to change a life. They rescue shelter dogs (especially from high-kill shelters) that have the right temperament, then train them to be service dogs for people with a variety of disabilities. Creating and growing a non-profit involved unfamiliar paperwork, unexpected regulations, fundraising, recruiting volunteers, and more. Join Michelle and Brandi as they describe their experiences in creating, managing, and growing a non-profit. (NI/RC)

April 20 – Small Business Success: Turning Sticks and Stones into Dollars and Cents

When Oprah Winfrey says, “This is the perfect gift for the person who has everything,” that is a real winner. Jera and Brad Deal created a small business from nothing in 2005, and their business has grown throughout the past decade so that they no longer need to do marketing. It began as an alphabet lesson for their daughters — looking for letters in nature (“sticks”) and architecture (“stones”). It became a business of creating personalized art by combining photographs of letters formed by “sticks” and “stones.” Join us as we learn how they started their business, Sticks and Stones, how they overcame challenges, how they appeared on The Oprah Winfrey Show, Martha Stewart, and others, and how they won endorsements by many national publications. (NI/RC)

April 27 – Slow Racing, in Vintage Autos, with Precision Results, Across the Country, for Fun!

Richard McKone is a dentist with the unusual hobby of racing vintage autos, with precision results, across

the country. The Great Race in America is an annual cross-country race for classic cars in which precision, not speed, is the key to winning. In this race, an air temperature change of five degrees can change everything! The race uses a different route each year, most recently old Route 66, and has visited more than 900 cities, including three times in Peoria. Richard has participated for 21 years and is so dedicated that in 2013, he completed the nine-day race even though he had had his appendix removed the previous day! Richard will tell us about his hobby and show some videos of these exciting experiences. (NI/RC)

52. Peoria – Whiskey City USA

**Trip #13
TIE-IN**

The first distillery in Peoria opened in 1843. By the Civil War, Peoria was one of the leading distilling centers in the United States. By 1880, the city was called the whiskey capital of the world. What were the factors that led to Peoria becoming such a big distilling center? What was the Whiskey Trust? Who were the Peoria whiskey barons? Join local historians and researchers of the Peoria whiskey era, Bernie Drake, John and Marilyn Leyland, and Jesse Williams of J.K. Williams Distillery, for this class on a unique period of Peoria history. (RI/NI/NC)

53. Significant Sculptors of the 20th Century

Explore a sculptor’s creative processes, with a variety of subjects, during turbulent times; compare European and American sculptures; observe the exploration of new materials; and watch sculptors on the brink of the 21st century. The class instructor, Bennett Johnson, is a retired architect and former Chicago Art Deco Society president. (RI/NC)

54. We are Living Longer – Will Your Assets Last Your Lifetime?

We are living longer and many people are hoping, guessing, or trusting that their assets will last their lifetime. As a general rule, retirees are in one of the three groups: too frugal and missing out on what life offers, spending too much with the risk of running out of money, or managing their assets and expenses so their assets last a lifetime. Carol Sears provides tools to identify the value of your assets (including future income), identify expenses (including future expenses), and the options available to fix problems that surface from this analysis. Feel more comfortable knowing all is well, or what to change, if changes are needed. This is not an investing class; it is focused on learning how to analyze assets vs. expenses. (RI/RC)

55. What is So Bad (or Good) about Common Core Math?

Many have a preconceived notion about Common Core – sometimes without ever having read or analyzed even one of the standards themselves. It will be very interesting to think through (with lots of real life examples) how different math needs are today versus those of the 20th century, and how CC Math Standards are designed to help students meet them. We will have a good time (and you will feel successful as never before) working together (with a thinking partner) through examples from kindergarten through algebra and geometry. And we will throw in a few statistics examples using political polls. This class instructor is Barbara Wilmot, a teacher, professor, author, presenter, and consultant. (NI/NC)

2:00 – 3:30 p.m.

56. Daniel (1-6)

This is an inductive study of the book of *Daniel*. We will read the first six chapters, ask questions, and answer them from the book, without interpretation. In this way you learn what is said and can consider the various interpretations armed with facts from the book. Various verses may be explained in other passages. This class will be taught by Jeff Smith, who has been learning and teaching for 40 years about *Daniel* and its relationship to Revelation, world history, Biblical imagery, and idioms of our speech. (NI/NC)

For last year's Summer Social, OLLI members enjoyed a banquet lunch and private lecture on the Spirit of Peoria during a beautiful river cruise.

On OLLI's Day at the JUMP Education Center, participants visited the anatomy lab to see how doctors and nurses can practice complicated surgical procedures.
