2019 - 2020 BACCALAUREATE GRADUATES

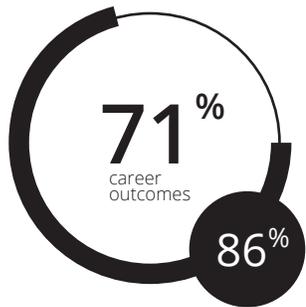

The majority of this class graduated in May 2020, during the COVID-19 Pandemic. The impact of the COVID-19 Pandemic was sudden and resulted in withdrawn and postponed job offers as well as employer recruiting staffs being adversely impacted.

Despite a challenging job search environment as a result of the COVID-19 Pandemic, many Foster College graduates reported positive career outcomes in the 2019-2020 recruiting season. Graduates reported accepting employment offers to work at 79 different organizations. Six undergraduate majors reached a career outcomes rate of 100%. Organizations employing 3 or more graduates were: RSM US LLP, Caterpillar Inc., Echo Global Logistics, Sikich LLP, Liberty Mutual Insurance, and CliftonLarsonAllen LLP.

EXECUTIVE SUMMARY

Scope and Methodology

This report includes data about the August 2019, December 2019, and May 2020 Bradley University baccalaureate and graduate degree recipients. The study utilizes data from 88% of all baccalaureate degree recipients and 84% of all advanced degree recipients. Data was collected from students via graduation fair surveys, online surveys, telephone and email solicitations, alumni records, social media research, and input from faculty, staff, and employers. Data collection began in August 2019 and concluded in December 2020.

Career Outcomes and Knowledge Rate

The Bradley University career outcomes rate for the 2019-2020 baccalaureate graduating class is 85% which is notably lower than the previous year (94%) and our five (91%) and ten (92%) year averages. The majority of this class graduated in May 2020, during the COVID-19 Pandemic. The impact of the COVID-19 Pandemic was sudden and resulted in withdrawn and postponed job offers as well as employer recruiting staffs being adversely impacted. The 85% career outcomes rate is comparable to the career outcomes rates which occurred as a result of the Great Recession (2007-2010). The career outcomes rate in 2008-2009 was 87% and in 2009-2010 was 88%.

The career outcomes rate is calculated by dividing the number of students who are employed or continuing their education by the total number of students about whom we have information. We successfully contacted, surveyed, and/or researched 888 of our baccalaureate graduates which resulted in an 88% knowledge rate. The term “knowledge rate” defines the percentage of graduates for whom we have reasonable and verifiable information concerning the graduates’ post-graduation career activities. Our knowledge rate is considerably higher than the national recommended minimum knowledge rate of 65%.

Experiential Activities and Registered Internships

The Bradley University experiential activities rate for the 2019-2020 baccalaureate graduating class is 93%. This was calculated by tracking students' participation in opportunities such as: internships, co-ops, practica, faculty-led research, capstone projects and study abroad. Of the 1,013 graduates, 21% had a *registered* internship or practicum. Baccalaureate graduates conducted *registered* internships with 180 different employers.

Employers

Baccalaureate degree graduates were employed with 444 different employers in 28 states and 5 countries. The diversity found within this group is a benefit for our students.

Smith Career Center

95% of baccalaureate graduates used the services of the Smith Career Center while attending Bradley University. In 2019-2020 we provided 56 workshops for ALL students and 159 presentations to classes or groups. 3,117 students utilized the services of the Smith Career Center. Smith Career Center staff provided 4,404 one-on-one appointments. We remained a top source of job leads for accepted positions when students utilized resources such as internships, job fairs, and Bradley netWORK.

Standards and Protocols

The terminology, standards, and protocols of the National Association of Colleges and Employers (NACE) are utilized throughout this study. NACE is the preeminent national organization focused on the employment of the college educated.
